AREA BIRTHS & DEATHS
1993-1997

This is a collection of "Area BIRTHS and DEATHS" published weekly in the Muskingum County/Zanesville, Ohio Advertiser from January 1993 thru 1997.

We are VERY GRATEFUL to THERI KACKLEY of the Advertiser staff, and to the Advertiser for preparing and providing copies of back issues (Jan. 1993 thru May, 1996). THANK YOU THERI!!!

There were three publication dates during that period copies were unavailable for. They are July 4 and October 24, 1993 and March 20, 1994.

To "fill" these gaps the Times Recorder micro-films in the John McIntire Library were checked. BUT there was no T.R. on micro-film for October 16, 17, 18 and the 21st of 1993, or for March 16, 1994. Death records we're indexing were checked, then the obituary files in the MCCOGS Genealogy room to fill in the age and place of residence for the deceased.

If a name and date was found in the death records, but no obituary was found, the death certificate number has been listed along with the date, name and place of interment.

There is no practical way to fill BIRTHS when the Advertiser or T.R. is not available.

There is NO guarantee this includes EVERY person. Some were not published, following the wishes of the deceased or the family.

BIRTHS for the period prior to July 4 and October 24, 1993 are found on page 23, and for March 20, 1994, on page 27. (These are ONLY the published birth records).

DEATHS for July 4 and October 24, 1993 are found on page 42. Those for March 20, 1994 are on page 48.

Pages are numbered consecutively from 1 thru 120 for BIRTHS starting inside the front cover. Deaths are numbered 1 thru 148 starting inside the opposite (back) cover.

The INDEXES for BIRTHS (6076) and DEATHS (10,225) in this (1993-1997) book have been produced by NANCY METZ and her sister, MARGO HAREN.

These indexes greatly increase the value of this book as a research/reference source.

The index for DEATHS should need no explanation.

The index for BIRTHS was a challenge. In order to be consistent throughout the index, since many published births list parents with different surnames (sometimes even if married) they are indexed by the mothers listed name. (The child's name is rarely published.)

These are "AREA BIRTHS AND DEATHS" and may include many from around Muskingum County. These will be listed in the Muskingum County records ONLY if they occurred in Muskingum County.

Many names listed in DEATHS may not be found in the MCCOGS obituary files in the Genealogy library, especially when interred outside Muskingum County.

These indexes were alphabetized and printed by Steve Ensminger.

Area Births & Deaths were collected, prepared and copied for this book by Neil Ensminger.
